### Who needs French tips?!

This is my new Go-To to keep me going with daily nutrition with everything I need, monthly! This makes it so easy to know what I need without needing to think about it!

And the best part is my hair and nails are growing super fast and strong... who needs French tips when you have natural long nails?! My skin is looking younger and more moist and I am loving this program!

I feel so nourished I only need one meal a day and a few snacks! The shakes taste great and leave me feeling energized and amazing!

### Anti-Aging!

I could not be more thrilled to finally get a quality collagen shake! The ingredients are 1 million times better than anything out there! My friends have been sending me before and after pictures in just a short time of using it. Their neck is looking tighter, the wrinkles between their eyebrows are softening, their forehead lines are disappearing, it's just incredible! And on top of all of that it's delicious! Win win win!!!

I must say personally, my hairdresser and lash gal have both commented that they are amazed at my regrowth. It is all due to this collagen pack!!

I'm so glad to have purchased the collagen support pack. I know how much my body needs it all. The Dark Berry is really delicious and I know it's giving my body support it needs. I take the Renew Hair, Skin and Nails everyday to help build those areas in my body as well! It's a great combination.

### Dream Combo!

I'm obsessed with this pack! The dark berry protein shake is so light and refreshing!! I always start my day with fruit so this is the perfect addition to my morning routine. My nails have never been longer or stronger. I no longer get acrylics or dip powder on my nails because my natural nails are growing so fast!! These foods have helped me connect to my natural beauty on a deeper level.

# Notes from the Co-Founders

It's often been said that what's on the inside is what's most important, and that is definitely true for Purium, because inside of every Purium package is the purest, most potent superfood on the planet. However, we also believe that what's on the outside should be as healthy as what's on the inside- healthy for our planet, that is! And that is why we are so proud to have eliminated 95% of our plastic packaging and replaced it with compostable, plant-based packaging that is safer and better for this planet and its inhabitants. With your help, so far we have eliminated over 100 tons of petroplastic waste from entering the environment.
